# Wells Interior

*Custom-made for study rooms and bedrooms*

Winner of the IDEA Design Award and Good Design Award

GOOD  
DESIGN  
AWARD  
2019

## Sophisticated Design featuring Fabric Texture

*fabric-like finishing that elevates the interior design of your home!*

## Delivers Perfect Performance in a Compact Size

### Great Performance

Small and compact but still powerful in its class

### Quiet Study Mode

Creates a pleasant study environment with fan noise as quiet as 28db

### Slim and Compact

Utilises space more efficiently

### Silent but Powerful

Reduces noise level while discharging clean air

## Light Sensor

Switches mode depending on the brightness of the room.

## Micro Dust Sensor

Measures daily gases and total volatile organic compounds (TVOCs).

## Odour Sensor

## Overall Air Quality Indicator

Detects dust and odours (gases) to understand the air quality in the room.

Good

Normal

Bad

Very Bad

# 3 - Steps Filtration

99.997% complete removal of ultra-fine dust particles  $0.3\mu\text{m}$  with strengthened hygiene through the addition of H14 Zero Clear HEPA filter.

Ultra-Fine  
Pre Filter

Deodorisation  
Filter

Zero clear HEPA  
(H14) Filter

## Step 1

Eliminates large particles like human hair, pet hair and lint.

## Step 2

Eliminates bad odours, gases and pollutants (TVOCs)

## Step 3

Eliminates ultra-fine dust and nano-particles in the air

# Product Specification

Basic Specifications	
Product	Wells Interior
Model	AL106AWA
Clean Area	19.8m <sup>2</sup>
Installation	Stand / wall-mounted type
Size (WxDxH)	360mm x 173mm x 360mm
Weight	5kg
Performance and Additional Functions	
Filter	Ultra-Fine Pre Filter → Smart Custom Filter → Deodorisation Filter → Zero Clear HEPA (H14) Filter
Sensor	Dust / Odour / Lighting
Clean Status Light	4 Levels (Good → Very Bad), 4 colours
Airflow Mode	3 Levels
Operation Mode	Auto / Sleep / Studying
Schedule Function	2-hour / 4-hour / 8-hour
Energy Usage	
Power Consumption	25W
Energy Efficiency	N/A (DC 24V)
